15.30							
16.00	Closing and award ceremony						
16.30							

October 30th - Hall Mediterranean & Adriatic

11.00-18.30 Advanced Techniques in Endoscopic Third Ventriculostomy: Cadaver-Free Skill Enhancement Course

The training program is designed to provide a comprehensive learning experience through both theoretical instruction and hands-on practical sessions. Participants will be grouped into pairs, with a total of five workstations available. Each pair will collaborate at a designated workstation, where they will alternate between the roles of First Operator and Second Operator.

The practical sessions are organized into structured shifts, from 1 to 5. Participants are divided into groups according to the assigned shift number, ensuring an organized and systematic progression through the practical sessions.

Each shift lasts for one hour and is divided into two 30-minute intervals. During the first half of the shift, the trainee assigned as the First Operator will perform the procedure, while the Second Operator observes and assists as needed. After 30 minutes, the roles will be switched, allowing the Second Operator to execute the procedure while the First Operator assumes a supporting role.

This alternating format is designed to ensure that both trainees gain equal hands-on experience and develop proficiency in both leading and supporting roles. The practical sessions are strategically scheduled after an initial entry test and a comprehensive theoretical session to reinforce the concepts learned.

The program is structured into five distinct shifts, commencing at 12:30 PM. This schedule allows each pair ample opportunity to practice and refine their skills under supervised conditions.

October 30th - Hall Mediterranean & Adriatic

- 11.00-11.30 Entry test - Assessment of participants' baseline knowledge
Facilitator: Adj. Prof. Federico Nicolosi, University of Milano-Bicocca, Italy
- 11.30-12.30 Theoretical session - Introduction to the procedures and discussion of key concepts
Speakers: Dr. Lechanoine François, Dr. Mirko Micovic, Adj. Prof. Federico Nicolosi, Mr. Bassel Zebian
- 12.30-18.30 Practical Session – Hands-On Training of Advanced Techniques in Endoscopic Third Ventriculostomy**
- Participants will be divided into pairs, alternating between the roles of First Operator and Second Operator at each workstation. Each shift includes 30-minute intervals per participant.
- 12.30-13.30 Shift 1
Endoscopic Third Ventriculostomy
Facilitator: Adj. Prof. Federico Nicolosi, University of Milano-Bicocca, Italy
- 12.30-13.00 First trainee performs the procedure as First Operator
- 13.00-13.30 Switch roles - Second trainee performs the procedure as First Operator
- 13.30-14.30 Shift 2
Endoscopic Third Ventriculostomy
Facilitator: Dr. Lechanoine François, Senior consultant neurosurgeon at Maria Cecilia Hospital, GVM Care & Research, The Italian Hospital Group, Italy
- 13.30-14.00 First trainee performs the procedure as First Operator
- 14.00-14.30 Switch roles - Second trainee performs the procedure as First Operator
- 14.30-15.00 Lunch
- 15.00-16.00 Shift 3
Endoscopic Third Ventriculostomy
Facilitator: Mr. Bassel Zebian, MBBS, BSc (Hons), MRCS (Engl), FRCS (Neuro.Surg), Consultant Paediatric and Adult Neurosurgeon, King's College Hospital, London, UK
- 15.00-15.30 First trainee performs the procedure as First Operator
- 15.30-16.00 Switch roles - Second trainee performs the procedure as First Operator

October 30th - Hall Mediterranean & Adriatic

16.00-17.00 Shift 4

Endoscopic Third Ventriculostomy

Facilitator: Dr. Mirko Micovic, Faculty of Medicine, University of Belgrade,
Clinic of Neurosurgery, University Clinical Center of Serbia, Belgrade,
Serbia

16.00-16.30 First trainee performs the procedure as First Operator

16.30-17.00 Switch roles - Second trainee performs the procedure as First Operator

17.00-18.00 Shift 5

Endoscopic Third Ventriculostomy

Facilitator: Adj. Prof. Federico Nicolosi, University of Milano-Bicocca, Italy

17.00-17.30 First trainee performs the procedure as First Operator

17.30-18.00 Switch roles - Second trainee performs the procedure as First Operator

18.00-18.30 Post training evaluation questionnaires and closure Moderators/
Speakers: All Faculty

Completion of evaluation questionnaires and final discussions

20.00 WELCOME RECEPTION FOR FACULTY AND GUESTS

Venue: Hotel Crowne Plaza Lounge, Mezzanine Level, Vladimira Popovica 10, Belgrade

October 31st - Exhibition Hall

- 09.00-11.30 **ISPN Session I - Hydrocephalus in Children: Current Trends in Treatment**
Moderators: Federico Di Rocco, Shlomi Constantini
- 09.00-09.15 ISPN Course - Opening remarks / Course overview
Jeffrey Blount, Shlomi Constantini, Lukas Rasulic
- 09.15-09.30 Hydrocephalus overview / CSF Pathophysiology
Shlomi Constantini
- 09.30-09.45 Fundamentals of Intraventricular Endoscopy
Federico di Rocco
- 09.45-10.00 Hydrocephalus management in the region
Mirko Micovic
- 10.00-10.15 **Case Presentation with Discussion - Complex Hydrocephalus**
- 10.15-10.30 Prevention of shunt complications
Kristian Aquilina
- 10.30-10.45 Endoscopy in multi-loculated Hydrocephalus
Artur Da Cunha
- 10.45-11.00 Pearls of successful shunt placement "How I do it"
Marek Mandera
- 11.00-11.15 **Case Presentation with Discussion - Complex Hydrocephalus**
- 11.15-11.30 Q&A
- 11.30-12.00 Coffee break

October 31st - Exhibition Hall

12.00-12.30 10th SNSS Annual Meeting - Official opening

Lukas Rasulic, Shlomi Constantini, Tomislav Sajko, Torstein Meling,
Serbian official

12.30-14.20 General Scientific Session 1

Moderators: Ioan Stefan Florian, Petar Vulekovic

12.30-13.00 Challenges in specific paediatric neurosurgical tumors
Madjid Samii

SNSS Tribute lecture: Milivoje Kostic

13.00-13.20 Current trends in Pediatric Neurosurgery
Shlomi Constantini

13.20-13.40 Evolution of cranio facial surgery
Torstein Meling

13.40-14.00 Pediatric Craniopharyngioma
Concezio Di Rocco

14.00-14.20 Pediatric DNT tumors: surgical and seizure outcome
Tomislav Sajko

14.20-15.00 Lunch

15.00-16.30 ISPN Session II - Hydrocephalus in Children: Current Trends in Treatment
- part II

Moderators: Kristian Aquilina, Artur Da Cunha

15.00-15.15 Neuro-endoscopy in infants
Artur Da Cunha

15.15-15.30 How I do it: ETV and ETV/CPC
Nelci Zanon

15.30-15.45 How I do it: ETV and ETV/CPC
Federico Di Rocco

15.45-16.00 Neuro-endoscopy-collaborative studies
Shlomi Constantini

16.00-16.30 Case Presentations with Discussion - Complex Hydrocephalus

October 31st - Exhibition Hall

16.30-19.15 Parallel session - General

Moderators: Ibrahim Omerhodzic, Bruno Splavski

- 16.30-17.00 Use of BHS robotic scope in pediatric VNS implantation
[Miroslav Gjurasin](#)
- 17.00-17.15 Problems of surgical treatment of hydrocephalus in prematurelyborn children
[Miljan Mihajlovic](#)
- 17.15-17.30 Combined treatment of medulloblastomas
[Sergey Gorelyshev](#)
- 17.30-17.45 Joint vascular and nerve lesions in children
[Ilijas Cinara](#)
- 17.45-18.00 Pediatric Neurosurgery in Greece: where we stand and what to achieve?
[Nikolaos Foroglou](#)
- 18.00-18.15 Contrasting Adult and Pediatric Neurosurgery: Understanding Key Differences
[Petar Vulekovic](#)
- 18.15-18.30 Iatrogenic amyloid angiopathy after lyodura transplantation in early childhood
[Senta Frol](#)
- 18.30-18.45 Bridging the Gap: General Neurosurgeons to Pediatric Neurosurgery Practice
[Djula Djilvesi](#)
- 18.45-19.00 Frequency of neurosurgical injuries and severity in newborns
[Vesna Nikolov](#)
- 19.00-19.15 Update in traumatic brain injury in pediatric population
[Jagos Golubovic](#)

20.00 - Gathering and Faculty transfer to the dinner venue

20.30 - Serbian Neurosurgical Society dinner - Venue: Move, Usce bb, Belgrade

October 31st - Hall Mediterranean

17.00-18.45 Parallel session Neuro-oncology and Radiosurgery

Moderators: Kostas Fountas, Selcuk Peker

17.00-17.15 Pediatric neuroradiosurgery

[Selcuk Peker](#)

17.15-17.30 Stereotactic Radiosurgery for Pediatric AVM'S

[Hakan Emmez](#)

17.30-17.45 Pediatric Radiosurgery in Gamma Knife Zagreb: a single center 20-year experience

[Sergej Marasanov](#)

17.45-18.00 The Role of SRS in Pediatric Neuro-Oncology

[Biljana Seha](#)

18.00-18.15 Significance of occipital sinus variation in posterior fossa surgery for children

[Manas Panigrahi](#)

18.15-18.30 Endoscopic approach to pituitary tumors in children

[Mihailo Milicevic](#)

18.30-18.45 Discussion

20.00 - Gathering and Faculty transfer to the dinner venue

20.30 - Serbian Neurosurgical Society dinner - Venue: Move, Usce bb, Belgrade

October 31st - Hall Adriatic

17.00-19.00 Special session on Obstetric palsy and related disorders

Moderators: Ruth Van Der Looven, Jorg Bahm

17.00-17.15 Introduction and accepted standards in obpp reconstruction

[Jorg Bahm](#)

17.15-17.30 Quality improvement in peripheral nerve surgery through intraoperative electrophysiology

[Joaquim Casanas](#)

17.30-17.45 Quality improvement in peripheral nerve surgery through histopathology

[Franck Fitoussi](#)

17.45-18.00 Nerve transfers in obpp

[Jorge Clifton](#)

18.00-18.15 Nerve transfers in other non traumatic conditions with hypotrophic muscles

[Jorg Bahm](#)

18.15-18.30 Obstetric palsy: EMG and cortical plasticity

[Ruth Van Der Looven](#)

18.30-18.45 The use of contralateral C7 transfers in children

[Jorg Bahm](#)

18.45-19.00 Team preferences and strategy- a round table

[All speakers](#)

20.00 - Gathering and Faculty transfer to the dinner venue

20.30 - Serbian Neurosurgical Society dinner - Venue: Move, Usce bb, Belgrade

November 1st - Exhibition Hall

09.00-11.00 ISPN Session III - Pediatric Neuro-Oncology - Diagnosis and Management Strategies

Moderators: Kristian Aquilina, Shlomi Constantini

09.00-09.45 Introduction to Pediatric brain tumors - an overview
Shlomi Constantini

09.45-10.15 Craniopharyngioma
Kristian Aquilina

10.15-10.30 Juvenile pilocytic astrocytomas (JPA)
Mirko Micovic

10.30-10.45 Medulloblastoma
Marek Mandra

10.45-11.00 Ependymoma
Kristian Aquilina

11.00-11.30 Coffee break

11.30-13.30 ISPN Session IV - Pediatric Neuro-Oncology - Diagnosis and Management Strategies / part II

Moderators: Marek Mandra, Federico Di Rocco

11.30-11.45 Case(s) presentation/discussion

11.45-12.00 Posterior Fossa Mutism - definition and avoidance
Kristian Aquilina

12.00-12.15 Hydrocephalus management in posterior fossa tumors
Federico Di Rocco

12.15-12.30 Intra-operative nerve monitoring in pediatric supratentorial surgery
Shlomi Constantini

12.30-12.45 Pineal Region Tumors
Marek Mandra

12.45-13.15 Surgical Approaches to Focal Brain Stem Tumors
Kristian Aquilina

13.15-13.30 Case resolution/discussion - controversies/comments/tips/tricks

13.30-14.15 Lunch

November 1st - Exhibition Hall

14.15-16.45 General Scientific Session 2

Moderators: Lukas Rasulic, Djula Djilvesi

- 14.15-14.45 Cybernics Medical and Healthcare Innovation making full use of Cybernics and Neurobionics
[Yoshiyuki Sankai](#)
- 14.45-15.05 The use of intraoperativ MRI in pediatric brain tumor surgery
[Amir Samii](#)
- 15.05-15.25 Building Bridges Across Continents: Lessons from the EANS Global & Humanitarian Project
[Andreas Demetriades](#)
- 15.25-15.45 Surgery of deep-seated brain tumors in children
[Ulrich Sure](#)

SNSS TRIBUTE: Madjid Samii Lecture

- 15.45-16.05 Surgical management of clival chordomas in children
[Ihsan Solaroglu](#)
- 16.05-16.25 Surgical treatment of pediatric brain cavernomas
[Kresimir Rotim](#)
- 16.25-16.45 Hearing rehabilitation in children with cochlear implants and auditory brainstem implants
[Thomas Lenarz](#)
- 16.45-17.00 Augmented 3D visualization for vascular neurosurgery with the GLOW800 3D fluorescences and MyVeo headset integration
[Raphael Guzman, Michael Knook](#)

17.00-19.00 ISPN Session V - Spinal Dysraphism - Management Strategies

Moderators: Jeffrey Blount, Nelci Zanon

- 17.00-17.15 Overview of Dysraphism in 2024
[Jeffrey Blount](#)
- 17.15-17.30 *Case - MMC Closure/ after care*
- 17.30-17.45 Fetal closure of MMC
[Nelci Zanon](#)
- 17.45-18.00 How I do it- Closure of MMC
[Marek Mander](#)

November 1st - **Exhibition Hall**

- 18.00-18.15 Closed dysraphism/cutaneous anomalies
Shlomi Constantini
- 18.15-18.30 Spinal lipoma/lipomyelomeningocele
Jeffrey Blount
- 18.30-18.45 Limited dorsal myeloschisis
Federico Di Rocco
- 18.45-19.00 Case - Occult dysraphism - Questions/discussion

20.00 - Gathering and Faculty transfer to the dinner venue
20.30 - Faculty dinner - Venue: The White Palace, Belgrade

November 1st - Hall Mediterranean

11.30-13.45 Parallel session - Spine

Moderators: [Nebojsa Stojanovic](#), [Vladimir Klimov](#)

- 11.30-11.45 Severe congenital cervicothoracic dislocations in children due to bone-dysplasia-related vertebral malformations: surgical treatment and long-term results
[Vladimir Klimov](#)
- 11.45-12.00 Fractures of the odontoid. Evolution of indications for surgical treatment
[Alberto Delitala](#)
- 12.00-12.15 Pediatric deformity surgery: history and modern techniques of scoliosis management
[Marko Aleksic](#)
- 12.15-12.30 Spinal Fusion for Idiopathic Scoliosis: When? Where? How? Why?
[Daniel Staribacher](#)
- 12.30-12.45 Surgical treatment of rare variants of spinal deformity in spinal dysraphism syndrome
[Sergei Ryabykh](#)
- 12.45-13.00 Pediatric spine pathology
[Radmila Matijevic](#)
- 13.00-13.15 Therapy of back pain in children and adolescents
[Nebojsa Stojanovic](#)
- 13.15-13.30 Past, present, and future in pediatric spinal surgery in the Southeast Europe region
[Danilo Radulovic](#)
- 13.30-13.45 Lumbar disc herniation in the period of adolescence, single center experience
[Vojin Kovacevic](#)
- 13.45-14.15 Lunch

November 1st - Hall Mediterranean

17.00-19.15 Parallel session Vascular

Moderators: Nikolaos Foroglou, Senta Frol

- 17.00-17.15 Evolution of Management of Intracranial Aneurysms in Children
[Daniel Hanggi](#)
- 17.15-17.30 Microsurgical treatment of arteriovenous malformations in pediatric patients
[Sirajeddin Belkhair](#)
- 17.30-17.45 Aneurysmal Surgery at the Pediatric Age
[Ioan Stefan Florian](#)
- 17.45-18.00 Brain stem cavernomas in children
[Nejat Akalan](#)
- 18.00-18.15 Multimodality management of Pediatric AVM
[Krish Sridhar](#)
- 18.15-18.30 Aneurysms in pediatric population - case report, treatment specifics, review of literature and personal recommendations
[Andrej Mrljan](#)
- 18.30-18.45 Neurointerventions in children: an overview
[Ivan Vukasinovic](#)
- 18.45-19.00 Cerebral cavernous malformations in pediatric patients
[Marvin Darkwah Oppong](#)
- 19.00-19.15 Pediatric moyamoya - General features and surgical treatment options
[Milan Lepic](#)

20.00 - Gathering and Faculty transfer to the dinner venue

20.30 - Faculty dinner - Venue: The White Palace, Belgrade

November 1st - Hall Adriatic

11.30-13.45 Parallel session Functional

Moderators: Nejat Akalan, Vladimir Bascarevic

- 11.30-11.45 Neurosurgical management of tone and spasticity: the role of combined dorsal and ventral rhizotomy
[Weston Northam](#)
- 11.45-12.00 Outcome after epilepsy surgery for cortical dysplasia in children, single center experience
[Nejat Akalan](#)
- 12.00-12.15 Renaissance of hemispherotomy. The pediatric perspective
[Anastasia Tasiou](#)
- 12.15-12.30 Resective surgery in pediatric epilepsy
[Oguz Baran](#)
- 12.30-12.45 SEEG for refractory epilepsy in pediatric patients
[Goktug Akyoldas](#)
- 12.45-13.00 ITB in the treatment of cerebral palsy
[Igor Nikolic](#)
- 13.00-13.15 Selective and hyperselective neurotomies in treatment of spasticity.
[Andrija Savic](#)
- 13.15-13.30 EpiNeuron in the treatment of conditions associated with neuroinflammation and chronic neuropathic pain
[Tamara Svabic](#)
- 13.30-13.45 Clinical application of Neuronal in patients with compressive neuropathies, radiculopathies and nerve injuries
[Andrija Savic](#)
- 13.45-14.15 Lunch

November 1st - Hall Adriatic

17.00-19.00 Parallel session - Cranial and spinal malformations

Moderators: Hans Delye, Concezio Di Rocco

- 17.00-17.15 Endoscopic strip craniectomy and helmeting for single-suture craniostynosis: what is happening?
[Hans Delye](#)
- 17.15-17.30 Treatment of conus lipomas in children
[Tomaz Velnar](#)
- 17.30-17.45 Surgical Treatment of Myelomeningoceles in the Cantonal Hospital Zenica
[Rasim Skomorac](#)
- 17.45-18.00 Chiari malformation in children
[Michael Bruneau](#)
- 18.00-18.15 Surgical Treatment Modalities for Chiari Malformation Type I in Children and Adults: A Comparative Review
[Bruno Splavski](#)
- 18.15-18.30 Surgical treatment of spina biffida apperta - cystica
[Aleksandar Caparoski](#)
- 18.30-18.45 Contemporary surgical strategies for the treatment of intracranial arachnoid cysts
[Bojana Zivkovic](#)
- 18.45-19.00 Discussion

20.00 - Gathering and Faculty transfer to the dinner venue

20.30 - Faculty dinner - Venue: The White Palace, Belgrade

Hall Executive Boardroom

13.30-14.15 SOUTHEAST EUROPE NEUROSURGICAL SOCIETY - EC MEETING

November 2nd - Exhibition Hall

09.00-11.00 **ISPN Session VI - Pediatric Epilepsy Surgery Management Strategies**

Moderators: Jeffrey Blount, Shlomi Constantini

09.00-09.20 Approach to Epilepsy Surgery- Candidacy
Shlomi Constantini

09.20-09.50 Surgical treatment of epilepsy in children
Vladimir Bascarevic

09.50-10.10 Intracranial EEG- SEEG and Grids
Jeffrey Blount

10.10-10.30 **Case presentation - Pediatric medically resistant epilepsy**

10.30-10.45 Hemispherotomy
Jeffrey Blount

10.45-11.00 **Case resolution with questions/discussion**

11.00-11.30 Clinical application of Augmentative Craniotomy, a Novel Technique for the Management of Intracranial Hypertension
Luigi Valentino Berra

11.30-12.00 Coffee break

12.00-13.30 **ISPN Session VII - Chiari and Spasticity**

Moderators: Kristian Aquilina, Marek Mandra

12.00-12.15 **Cases Presentation - Chiari Malformation**

12.15-12.30 Chiari I - symptomatic
Nelci Zanon

12.30-12.45 Chiari I- asymptomatic/incidental
Artur Da Cunha

12.45-13.00 Bone only or duraplasty
Artur Da Cunha

13.00-13.05 **Case presentation - Spasticity**

13.05-13.20 Selective Dorsal Rhizotomy
Kristian Aquilina

13.20-13.30 Questions and discussion

13.30-14.15 Lunch

November 2nd - Exhibition Hall

14.15-16.00 General Scientific Session 3

Moderators: Ihsan Solaroglu, Ioan Stefan Florian

14.15-14.35 Fetal In-Utero Repair of Myelomeningocele: Microneurosurgical Advances and Techniques
Samer Elbabaa

14.35-14.55 Current surgical strategies for pediatric craniopharyngiomas
Francesco Tomasello

14.55-15.15 The present and future of therapeutical treatment of movements disorders
Giovanni Broggi

15.15-15.35 Endoscopic Treatment of Arachnoid Cysts
Memet Ozek

15.35-15.55 Strategy for Craniopharyngioma treatment
Sergey Gorelyshev

16.00-17.00 Workshop IRRaflow - The world's first system for intracranial drainage with irrigation and continuous ICP monitoring
Ana Zecevic

17.00-19.00 ISPN Session VIII - Craniofacial/Spasticity

Moderators: Federico Di Rocco, Shlomi Constantini

17.00-17.15 Personalized Cranial Remodeling for Scaphocephaly: a unified approach
Mirko Micovic

17.15-17.30 Case presentation - Craniosynostosis

17.30-18.00 Complex and simple craniosynostosis
Federico Di Rocco

18.00-18.20 Surgical repair of the child's peripheral nervous system
Lukas Rasulic

18.20-18.40 Simulation in Pediatric Neurosurgery
Nelci Zanon

18.40-18.55 Questions, conversation

18.55-19.00 Course Resoultion, Gratitude and Closure

20.30 - Networking dinner

Venue: Crowne Plaza, Hall Pacific, Vladimira Popovica 10, Belgrade

November 2nd - Hall Mediterranean

09.00-16.30 Nursing symposium

09.00-11.30 Neuro-oncology

Moderators: Zaklina Djuric, Svetlana Delic, Ljiljana Plavanski

09.00-09.10 Welcome address

Lukas Rasulic, Shlomi Constantini, Zaklina Djuric, Enisa Rizic

09.10-09.20 Small patients, big feats from the first steps to modern innovations

Enisa Rizic

09.20-09.30 Health care of a child with a placed nasogastric tube

Ljiljana Plavanski

09.30-09.40 Suprasellar tumors in children - case report

Ljubica Mladenovic

09.40-09.50 Pineal tumors in children - case report

Nenad Rakic

09.50-10.00 The role of the scrub nurse in pediatric neuro-oncology surgery

Nikolina Isailovic, Jelena Rabasovic

10.00-10.10 Nursing interventions of a tracheotomized child on mechanical ventilation in the neurosurgical intensive care unit

Biljana Bijelic

10.10-10.20 Contemporary aspects in the care and treatment of children with tumors of the central and peripheral nervous system

Ljiljana Budimirov

10.20-10.30 Neuroradiological imaging in pediatrics

Predrag Pantic

10.30-10.40 Holistic continuous treatment and care of the consequences of dark rain

Aleksandar Bezanic

10.40-10.50 Psychological support of children with brain tumors

Milana Ratic

10.50-11.00 Chemotherapy approach in the treatment of children with tumors of the central nervous system

Jelena Ivanovic

November 2nd - Hall Mediterranean

11.00-11.10 Brain tumors in children

Ivan Arapovic

11.10-11.20 Presentation of the NURDOR association

11.20-11.30 Discussion

11.30-12.00 Coffee break

12.00-14.20 General

Moderators: Enisa Rizic, Milica Pavicevic, Aleksandar Bezanic

12.00-12.10 Psychological help and support of nurses to sick children and their parents in the day hospital of the Neurosurgery Clinic

Snezana Gvozdenovic Lalic

12.10-12.20 Health care standards in the treatment and care of children with craniostenosis

Milica Petricevic

12.20-12.30 Behind the scenes - the irreplaceable role of the scrub nurse in craniostenosis surgery

Tamara Zivanovic, Marina Stanojevic

12.30-12.40 Hydrocephalus in children

Sanja Pantic Velimirovic

12.40-12.50 Intrathecal drug administration

Marina Cvetic

12.50-13.00 Specifics of children's palliative care

Mirjana Zivojnov

13.00-13.10 Modern aspects in the neurosurgical treatment and healthcare of children

Snezana Pavlovic

13.10-13.20 Health care of children with cerebrovascular diseases

Snezana Trifunovic, Jelena Djordjic

13.20-13.30 Standardized health care procedures in children with intracranial hemorrhage

Kristina Stankovic

13.30-13.40 Spinal sarcoma in children

Kristina Vasileski

13.40-13.50 Head injuries at home in children up to 5 years old

Ljubica Obrenov, Branislava Brestovacki Svitlica

November 2nd - Hall Mediterranean

13.50-14.00 Nursing interventions in head injuries

[Vesna Kostic](#)

14.00-14.10 Respiratory physiotherapy in children after neurosurgery - case report

[Borislava Radojicic](#)

14.10-14.20 Head injuries in children

[Andjela Cavar](#)

14.10-14.20 Discussion

14.20-15.00 Lunch

15.00-16.40 Craniocerebral and peripheral nerve injuries

Moderators: [Mirjana Zivojnov](#), [Dragana Ignjatijevic](#), [Vesna Kostic](#)

15.00-15.10 Nursing interventions in craniocerebral injuries

[Jelena Milenkovic](#)

15.10-15.20 Nurse's activities in treating traumatic conditions in children in the neurosurgical clinic of the ER

[Jelena Mitrovic](#), [Katarina Miljkovic](#)

15.20-15.30 Health care of children in the Department of Neurosurgical Clinic of the ER

[Jovica Djuric](#)

15.30-15.40 Caring for a child with a craniocerebral injury

[Vesna Kostic](#)

15.40-15.50 Standards in health care for children with peripheral nerve injury

[Svetlana Delic](#)

15.50-16.00 Craniocerebral injuries in children

[Mirjana Dackovic](#)

16.00-16.10 Teamwork in pediatric peripheral nerve surgery from the point of view of the instrument technician

[Jelena Savic](#), [Jelena Cvetkovic](#)

16.10-16.20 Health care of children with craniocerebral injuries

[Gorana Jovic](#)

16.20-16.30 Frequency of concussions in preschool children

[Ljiljana Stijepovic](#)

16.30-16.40 Closing

November 2nd - Hall Mediterranean

17.00-19.00 **Special session Treatment of pediatric chiasmatic-hypothalamic tumors**

Moderator: Memet Ozek

17.00-17.20 Surgical Anatomy of the Region and Classification

[Bahattin Tanrıkulu](#)

17.20-17.40 Surgical treatment of chiasmatic-hypothalamic tumors

[Memet Özek](#)

17.40-18.00 Pathological evaluation

[Ayça Erşen Danyeli](#)

18.00-18.20 Chemotherapy

[Cengiz Canpolat](#)

18.20-18.40 Radiation oncology treatment

[Evrin Kadriye Tezcanlı](#)

18.40-19.00 Discussion

20.30 - Networking dinner

Venue: Crowne Plaza, Hall Pacific, Vladimira Popovica 10, Belgrade

Hall Executive Boardroom

13.30-14.15

SERBIAN NEUROSURGICAL SOCIETY - EC MEETING

November 2nd - Hall Adriatic

09.00-11.30 IANA session

Moderators: Giovanni Broggi, Ioan Stefan Florian

- 09.00-09.15 Optic pathway Gliomas at pediatric age
[Ioan Stefan Florian](#)
- 09.15-09.30 Unveiling cerebral white matter tracts around cerebral ventricles and their anatomical significance
[Igor Maldonado](#)
- 09.30-09.45 ETV and ETV/CPC for Management of Hydrocephalus in the Spina Bifida Population
[Samer Elbabba](#)
- 09.45-10.00 Management of craniopharyngioma in pediatric patients vs. adults
[Ekkehard Kasper](#)
- 10.00-10.15 Semisitting position in pediatric patients: How we do it
[Joachim Oertel](#)
- 10.15-10.30 Pediatric posterior fossa ependymomas
[Vladimir Benes jr](#)
- 10.30-10.45 Endoscope-assisted versus Endoscope-controlled Approaches for Pineal Region Tumors in Children
[Samer Elbabba](#)
- 10.45-11.00 Surgery of Dystonia
[Giovanni Broggi](#)
- 11.00-11.30 Cases discussion
- 11.30-12.00 Coffee break

12.00-13.30 IANA Session

Moderators: Mahmood Qureshi, Joachim Oertel, Ekkehard Kasper

- 12.00-12.15 Delving into the depths: exploring brain microvasculature in deep brain regions & its clinical implications
[Igor Maldonado](#)
- 12.15-12.30 Vascular malformation in children
[Ioan Stefan Florian](#)

November 2nd - Hall Adriatic

- 12.30-12.45 Recognizing the anatomical differences of the pediatric patient enhances safety during neurosurgical procedures
[Mahmood Qureshi](#)
- 12.45-13.00 Transition from general neurosurgeon to pediatric neuro-oncological surgeon: Lesson learned
[Vladimir Benes jr](#)
- 13.00-13.15 Management of Chiari malformation in pediatric patients vs.adults
[Ekkehard Kasper](#)
- 13.15-13.30 Endoscopic treatment of craniosynostosis
[Joachim Oertel](#)
- 13.30-14.15 Lunch

17.00-19.00 Parallel session Innovative approaches

Moderators: Krish Sridhar, Francois Lachanoine

- 17.00-17.15 Applied artificial intelligence decision support system for pediatric neurosurgery
[Nenad Filipovic](#)
- 17.15-17.30 Endoscopic treatment of intracranial arachnoid cysts: Key Insights and surgical strategies
[François Lechanoine](#)
- 17.30-17.45 Advances and innovation in neuroendoscopy
[Bassel Zebian](#)
- 17.45-18.00 Revolutionizing Pediatric Neural Regeneration: The Power of Stem Cells and Biomaterials
[Dusan Maric](#)
- 18.00-18.15 Management of idiopathic intracranial hypertension in children
[Diaa Radwan](#)
- 18.15-18.30 Endoscopic Vs Microsurgical Excision of Colloid Cyst
[Hemant Bhartiya](#)

November 2nd - Hall Adriatic

- 18.30-18.45 Pathophysiology of neural signaling nitric oxide and its pharmaceutical development
[Lee Jia](#)
- 18.45-19.00 Neurosurgical and Neuro Ophthalmology Management of Obstructive Hydrocephalus and Compressive Optic Pathology.
[Maja Kostic & Carolyn Quinsey](#)
- 19.00-19.15 3D printing models – useful tools in cranioplasty and pedicle screw navigation in idiopathic scoliosis surgery
[Vladimir Papic](#)

20.30 - Networking dinner

Venue: Crowne Plaza, Hall Pacific, Vladimira Popovica 10, Belgrade

November 3rd - Exhibition Hall

09.00-11.30 Panel EANS Section of Pediatric Neurosurgery & ESPN Pediatric Neurosurgery - Special topics

Moderators: Gianpiero Tamburrini, Ulrich-Wilhelm Thomale

09.00-09.15 Surgical issue in the management of pineal region tumors
[Gianpiero Tamburrini](#)

09.15-09.30 Endoscopic Treatment of Isolated IV Ventricle
[Memet Ozek](#)

09.30-09.45 Iatrogenic nerve lesions in paediatric population
[Christian Heinen](#)

09.45-10.00 Pediatric tumor surgery - how to improve both surgical and post surgical outcome
[Jane Skjøth-Rasmussen](#)

10.00-10.15 Management of pediatric Low grade glioma
[Ulrich-Wilhelm Thomale](#)

10.15-10.30 Multimodal approach for the treatment of hypothalamic hamartomas
[Jose Hinojosa](#)

10.30-10.45 Surgery of lumbosacral lipomas – too much too soon or too little too late?
[Dominic Thompson](#)

10.45-11.10 Round table

11.10-11.30 Modern Treatment of Pediatric Hydrocephalus
[Ulrich-Wilhelm Thomale](#)

11.30-12.00 Coffee break

12.00-14.10 Masterclass - Pediatric neurosurgery in the 21st century

12.00-12.10 Introduction/Overview
[Jeffrey Blount](#)

12.10-12.30 Pediatric Neuro-oncology
[Kristian Aquilina](#)

12.30-12.50 Pediatric Hydrocephalus/Endoscopy
[Nelci Zanon](#)

November 3rd - Exhibition Hall

- 12.50-13.10 Spinal Dysraphism
[Jeffrey Blount/Nelci Zanon](#)
- 13.10-13.30 Pediatric Moyamoya Angiopathy
[Peter Vajkoczy](#)
- 13.30-13.50 Epilepsy and Functional Neurosurgery
[Jeffrey Blount](#)
- 13.50-14.00 Discussion

14.00-14.30 REFRESHMENT

14.30-16.00 Young Neurosurgeons' forum & competition for awards

[Moderators: Kostas Fountas, Djula Djilvesi, Ibrahim Omerhodzic](#)

- 14.30-14.38 Neurosurgical treatment of ruptured pontine cavernous malformations in children- our experiences and controversies
[Ioan-Alexandru Florian](#)
- 14.38-14.46 Experience of using minimally invasive microsurgical decompression (MMD) in patients with degenerative monosegmental lumbar spinal stenosis
[Evgeny Brinyuk](#)
- 14.46-14.54 17-Year-Old Teenage Girl Who Survived Multiple Gunshots to the Head and Body from an AK-47 Rifle in Mass Murder: Case Report
[Drazen Radanovic](#)
- 14.54-15.02 Hydrocephalus Post-Foramen Magnum Decompression: A Paediatric Case Study of Complications and Recovery
[Vivek Nagappa](#)
- 15.02-15.10 Pleuropulmonary Blastoma (PPB) with Central Nervous System Metastasis: Case Report
[Dusan Petrovic](#)
- 15.10-15.18 Lessons learnt in doing endoscopic third ventriculostomy in children
[Kurella Naga Shraavan Kumar](#)
- 15.18-15.26 Endoscopic surgery for basal encephaloceles in children
[Nadezhda Chernikova](#)
- 15.26-15.34 Ruptured Sylvian arachnoid cyst in children
[Aleksey Volkov](#)

November 3rd - Exhibition Hall

- 15.34-15.42 Surgical management of cerebellar peduncular tumors in pediatric population: challenges and pitfalls. Report of 12 cases.
[Agne Andriuskeviciute](#)
- 15.42-15.50 Dandy-Walker syndrome- case report
[Nikola Stojanovic](#)
- 15.50-16.00 Discussion
- 16.00-16.30 Closing and award ceremony

November 3rd - Hall Mediterranean

09.00-11.30 Parallel session - Neuro-oncology

Moderators: [Kostas Fountas](#), [Bruno Splavski](#)

- 09.00-09.15 Lobectomy in the management of Glioblastoma
[Kostas Fountas](#)
- 09.15-09.30 Pediatric Brain stem Lesions - Approaches
[Krish Sridhar](#)
- 09.30-09.45 Neonatal brain tumors
[Aleksandr Kim](#)
- 09.45-10.00 A personalised treatment of pediatric posterior fossa ependymomas
[Martin Smrcka](#)
- 10.00-10.15 Role of methylation in pediatric brain glioma
[Ibrahim Omerhodzic](#)
- 10.15-10.30 Surgical treatment of pediatric tumors of pineal region
[Rosanda Ilic](#)
- 10.30-10.45 Surgical treatment of low-grade epilepsy-associated neuroepithelial tumors (LEAT) in children
[Ivan Bogdanovic](#)
- 10.45-11.00 DPG (Duplication of the Pituitary Gland) - Plus Syndrome: A Case Report Emphasizing Clinical Features, Management Considerations and Review of the Literature
[Marina Milic](#)
- 11.00-11.15 Endoscopic third ventriculostomy and cauterization of choroid plexus – indications and some technical considerations
[Bojana Rankov Petrovic](#)
- 11.15-11.30 Discussion
- 11.30-12.00 Coffee break

November 3rd - Hall Mediterranean

14.30-16.00 FREE TOPICS - Neurotrauma & PNS

Moderators: Zlatko Kolic, Andrija Savic

- 14.30-14.40 Peripheral Nerve Sheath Tumors in Neurofibromatosis Type 1
[Andrija Savic](#)
- 14.40-14.46 Newborn head trauma versus physiological head trauma
[Zlatko Kolic](#)
- 14.46-14.52 Gunshot Brain Injury – The Lost Race?
[Milan Spaic](#)
- 14.52-14.58 Outcome of surgically treated acute epidural hematoma, 32 months prospective observational study
[Biruk Kebede](#)
- 14.58-15.04 Decompressive Craniectomy Complicated by an Epidural Hematoma: A Case Report
[Ghassen Gader](#)
- 15.04-15.10 Head trauma in a child with Struge-Weber Syndrome overlapping Klippel-Trenaunay syndrome
[Aleksandar Kostic](#)
- 15.10-15.16 Radiological examination in children with minor head injury – Dilemma based on a case report
[Hristina Jovic](#)
- 15.16-15.22 Epidemiology of Paediatric Head Injuries in Government General Hospital, Kakinada, Andhra Pradesh
[Kodali Sandhya](#)
- 15.22-15.28 A Case of Chronic Subdural Hematoma: A Rare Complication of Traumatic Brain Injury in Pediatric Patient with Favorable Outcome Following Minimally Invasive Surgery
[Salko Zahirovic](#)
- 15.28-15.34 Clinical and research Institute of Emergency Pediatric Surgery and Trauma, Moscow, Russia
[Zhanna Semenova](#)
- 15.34-15.40 Intracranial penetrating trauma in a patient with a previously embolized aneurysm.
[Marko Todorovic](#)

November 3rd - Hall Mediterranean

- 15.40-15.46 Atlanto-occipital dislocation - a case report of an 8-year-old child injured in motor vehicle accident
[Marko Kovacevic](#)
- 15.46-15.52 Non-traumatic bilateral periorbital hematoma in a seven-year-old child: A Case Report and the importance of differential diagnostics
[Aleksandar Markovic](#)
- 15.52-16.00 Discussion

November 3rd - Hall Adriatic

09.00-11.30 Parallel session Neuroanesthesia

Moderators [Tijana Nastasovic](#), [Sasa Knezevic](#)

09.00-09.15 Children Neuroanaesthesia Basics

[Milos Kaludjerovic](#)

09.15-09.30 Airway challenges in pediatric neurosurgical patients

[Renata Curic Radivojevic](#)

09.30-09.45 Respiratory infections in children and anesthesia in neurosurgery

[Sasa Knezevic](#)

09.45-10.00 Intraoperative facial nerve monitoring: could it be life-threatening?

[Tjasa Ivosevic](#)

10.00-10.15 Analgesia in pediatric craniotomy patients

[Igor Lazic](#)

10.15-10.30 Sitting position for neurosurgical interventions in pediatric patients

[Marija Rakonjac](#)

10.30-10.45 Anesthesia for posterior cranial fossa surgery in children

[Danka Bakovic](#)

10.45-11.00 Traumatic brain injury in children and adolescents: experiences at PICU in Split, Croatia

[Branka Polic](#)

11.00-11.15 Management of Pediatric Traumatic Brain Injury

[Aleksandra Gavrilovska](#)

11.15-11.30 Neurophysiological monitoring for neurosurgical interventions in pediatric patients

[Tijana Nastasovic](#)

11.30-12.00 Coffee break

November 3rd - Hall Adriatic

14.30-16.00 FREE TOPICS - Neurooncology

Moderators: Bahattin Tanrikulu, Vesna Nikolov

- 14.30-14.40 Clinical Outcomes of Pediatric Clival Chordomas: A Retrospective Analysis
[Bahattin Tanrikulu](#)
